

ORGANIC ZINC-RICH PRIMERS APPROVED BY CALTRANS

The following zinc-rich primers have been tested and approved by the Transportation Laboratory for use when specifications require use of a commercial quality zinc-rich primer. Typical uses are repair of galvanized steel, minor touch-up on inorganic zinc-coated steel, application to threads on galvanized pipes, coating inside of bolt holes and other cut edges of coated-steel products. Aerosol cans shall not be used.

Refer to Section 91-1.04 of the 1995, 1999, or 2006 Standard Specifications

Coating color is indicated in parentheses.
If repair will be visible, a gray zinc shall be used.
